

The All - In - One Part Marking System

INTRODUCING THE... **40 CHARACTER I.D. STAMP TOOL**

Now available from Wilson Tool, the 40-Character ID Stamp Tool for Pullmax machines. Taking advantage of tool rotation technology, the ID Stamp Tool eliminates secondary part marking operations by allowing you to mark parts while they are still on the punch press. Each character is 3mm high, and the standard set includes:

- A to Z inclusive
- 0 to 9 inclusive
- - (Hyphen)
- / (Forward Slash)
- , (Comma)
- . (Full Stop)

Replacement characters are available, and special characters are available on request.

Software to operate the tool is supplied by Pullmax

Part Number #62155. Compatible with new generation Pullmax machines 520, 530, 720 & 730
